

MIST - CARPET TILE

As with all quality carpets, slight variation in colour may vary from dye lot to dye lot. It is recommended that this carpet be laid in accordance with AS2455. Monolithic or Quarter Turn installation is recommended. Professional cleaning is recommended. Construction of this carpet may involve the occurrence of shading. Certain light sources shining across the surface may emphasise the effect of shading. Shading is not a manufacturing defect and will not detract from the carpet performance.

George Low reserves the right to modify specifications subject to manufacturing variances. Manufacturing processes may necessitate specification changes without prior notice and without prejudice.
