Cleaning & maintenance

Forbo furniture linoleum collections are easy to clean and maintain. Following these guidelines will ensure that the optimum appearance of the product is retained.

After installation

- Remove any residual adhesive, coating and/or stains caused by fingerprints with a clean, moist cloth and if necessary, a pH-neutral cleansing agent (e.g. [Forbo Monel](#)).
- Use white spirit to remove dried adhesive, then immediately remove the white spirit with a clean dry cloth.

Regular cleaning

- Clean with a damp cloth, optional a pH-neutral detergent can be used. e.g (Forbo Monel diluted 5ml to 10L of water)
- Remove stains immediately after spillage.

Periodic Maintenance

In order to maintain the surface of Furniture Linoleum, Forbo Monel diluted with water should be used periodically. If the surface has been neglected or worn, Forbo Monel diluted 1:10 with water can be used to restore the surface appearance of Furniture Linoleum

Preventive measures and stain removal

To prevent stubborn stains always use coasters under flower pots, vases, cups, glasses, etc. It is important to remove spots, stains and spillages **as quickly as possible** to prevent them from penetrating into the material. The surface can be cleaned with a neutral detergent and water. If the above treatment does not help, try soaking the surface in water with a pH-neutral Universal Cleaner for a few minutes. Scrub the surface gently with a white pad or similar.

Do not use anything more abrasive than a white pad to clean furniture linoleum.

Finish by wiping off the dirty water with a cloth and rinse the surface with clean water and a clean cloth. To finish the surface after a thorough cleaning see "Periodic Maintenance" above. Some pigmented stains may be removed or made less visible by using turpentine or similar oil based solvent.

Do not use alkaline or alcohol based cleaning products since it will damage the surface.

Other floor care products may be used on Forbo Flooring resilient floor coverings. If alternative products are to be used consult with your regular supplier for more information and guidance.
